

The Flexiframe stands and frames of this easy-to-use system form a broad range of solid eyecatchers.

The stands are meant for indoor use, to be put at entrances, passages or other strategic points in shops, banks, exhibition halls, arcades etc. Wherever people come together or just pass.

Header frames, Brochure pockets

The stands can easily be equipped with brochure pockets. Header frames can be used if you wish to highlight a part of your message.

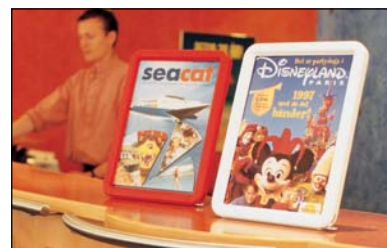

Table stands

You will also find small, handy tablestands, ideal for information on desks, shelves etc. where they can be easily seen.

Sign & Poster Stands

A complete range of indoor displays

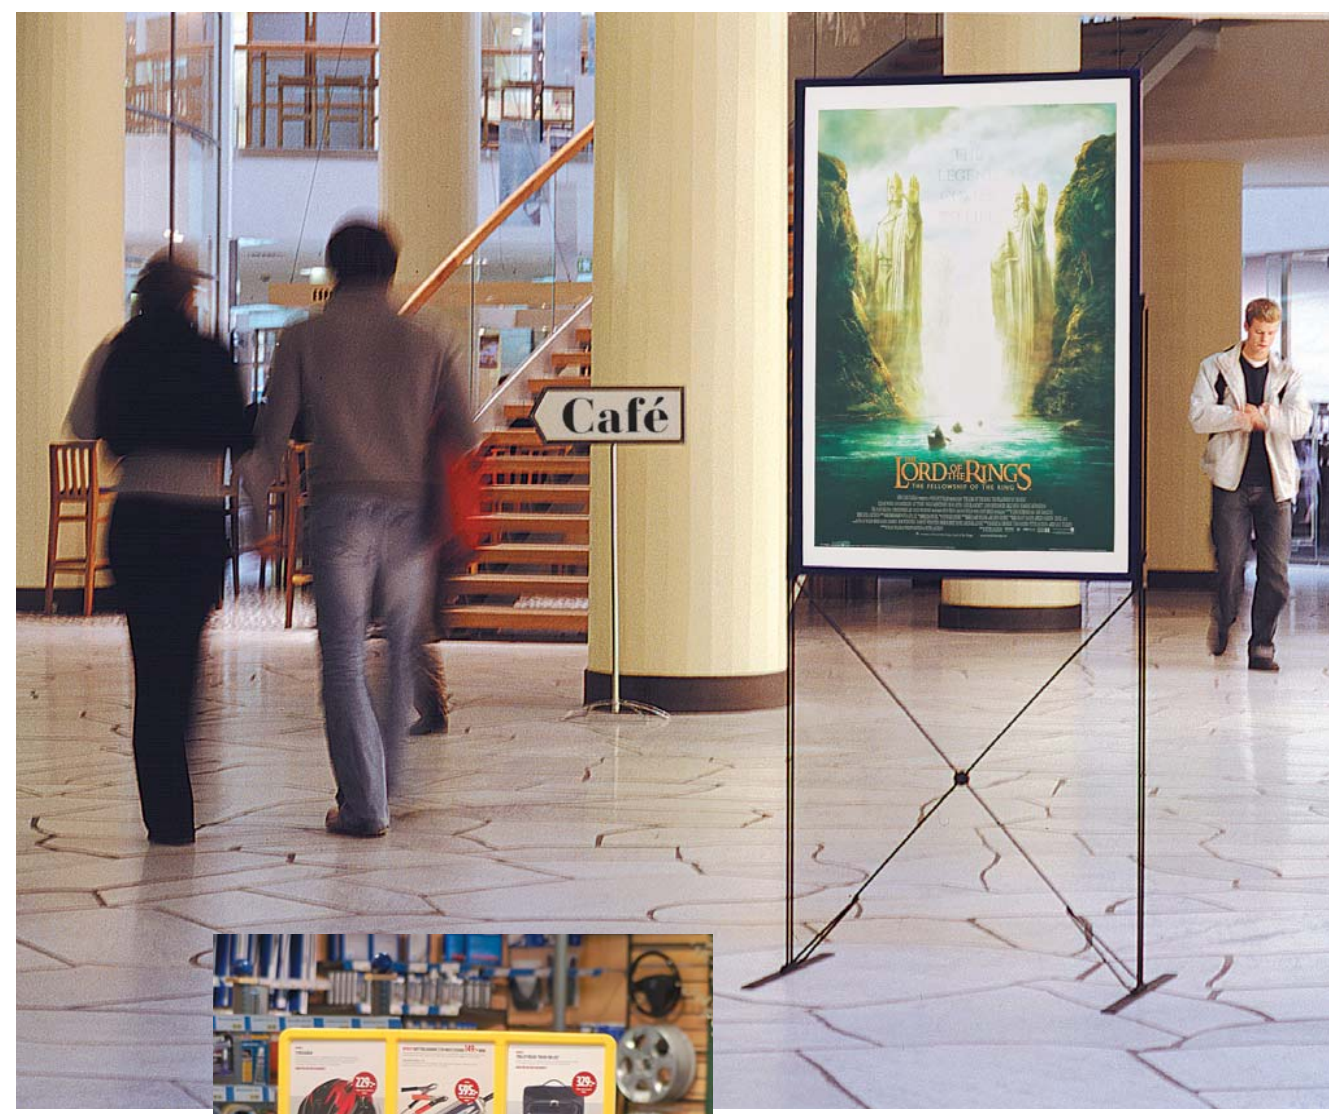

Present your message in style

- and you will be taken more seriously

The Flexiframe system for public presentations, with its wide range of good-looking sign and poster stands, adds that extra touch to your information and promotional messages – no matter what the panel shows; photos, texts, graphics or whatever. The well-designed stands contribute to drawing attention and interest in what you want to say or show and they certainly help you to arrange your material in an effective and winning way.

All stands can be used single- or double-sided

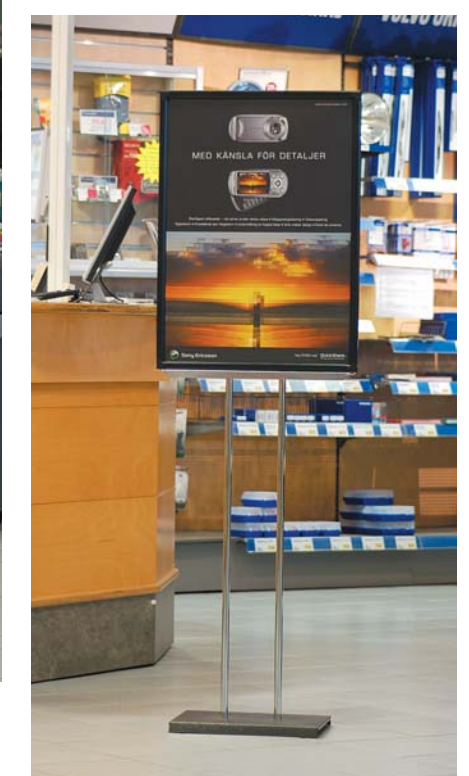

The directional sign with "Café" is an example of an "arrow" frame solution with Flexiframe. The X-stand in front is ideal for the larger formats of posters and prints.

Use a floorstand with extra heavy base for increased stability.

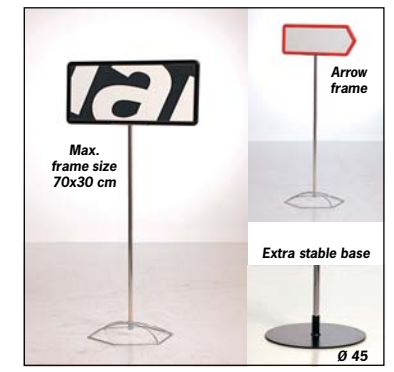

A subdivided frame, in this case 3 x A4, is ideal for multi product offers.

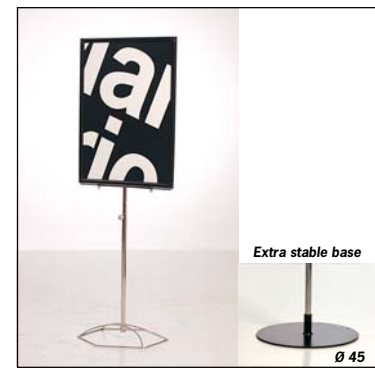

Our elegant "Prestige" stand takes signs/frames in size 50x70 cm, or alternatively A1. Ideal to attract attention at the point-of-purchase.

Chrome plated.
Item 2200/2205

How does it work?

You add to the stand a frame and a panel for your desired type of poster or print. Our practical "poster-pockets" in transparent plastic (glossy or anti-reflex), as well as velcro panels are available to make the unit even more versatile.

The range of Flexiframe stands are designed to take frames of different sizes and colours. All frames can be used with single- or double sided messages – to suit the location and the stream and movement of the people passing by.
